DR33

ELECTRICIANS KIT 102 PIECE

PRODUCT DESCRIPTION

An essential tool kit for general use. In keeping with our range of pre-designed tool kits, the Electricians kit has adopted the tool control aspect. The high quality tools are individually embedded into oil resistant foam. These foams have red material backing which highlights a missing tool immediately, whilst also ensuring that tools are kept organised and free from the risk of damage. Supplied in a high quality nylon bag with a comfortable grip handle with a kneeling pad.

TOOLS

102
