

697590 | Punches for ISO size holes with actuating screw

Description:

- For circular cut out in metal sheet and plastic.
- Operated with a wrench or ratchet/socket set.
- Fast, clean and burr-free cut out.
- For all ISO diameters from M12 to M63.
- Parts greased for better use.
- PRODUCT PLUS: the round is slit into three parts and falls automatically at the end of the cutting operation.
- Supplied with punch, die, and ball stop screw. Table caption: - d = ISO diameter/mm. - d1 = drilling diameter/mm. - Screw = dimension on flat (mm)/ operating screw. - E = max/thickness steel/soft.
