

DX.T100PB | Infrared Thermometer

Description:

- Provides non contact infrared temperature measurement with laser guide or by contact with K thermocouple (not supplied).
- Infrared: measurement -60°C --> $+625^{\circ}\text{C}$.
- D/S ratio (distance : surface): 16:1.
- Emissivity: adjustable.
- Mode: Min / Max, Differential, Instant, Average, Alarm (high and low)
- Connector for measuring with "K" thermocouples
